

Electricity is our Hero!

Electricity is very important to people. But one day there was a lost village. The people in the lost village were gnomes. But the gnomes were happy but also worried. The gnomes were worried because of the sneaky wizard lizard and her black crow because everybody was scared of him. So the wizard lizard and her black crow were hatching a plan to take all of the electricity.

So the wizard lizard sent her black crow to take all of the electricity. And the black crow did. But when the black crow was flying back the superhero electricity came! And the superhero electricity caught the black crow. And superhero electricity turned back on the electricity. And superhero electricity saved the day!

The End.
